Hello, Donna,

Friday, February 19th any time after 10 AM would work for a meeting with Minnesota. Include me, Catherine and Todd. If that isn't good for you we can look at March.

Miranda

Good Morning,

At the last ECOS annual meeting in September, ECOS and EPA discussed collaborating to achieve a joint goal that “all states submit 2022 CWA 303(d) lists by April 1, 2022, and EPA acts on all State submittals within 30 days.” Attached are documents to help facilitate this goal between the Regions and the States. I have a memorandum from John Goodin, Director of the Office of Wetlands, Oceans, and Watersheds, in Headquarters along with a template to help the Regions and the state meet the 2022 goal.

This template maybe on the agenda for the Joint Clean Water / PWSS State Directors call is scheduled for, Wednesday, December 9th, from 2 – 3 p.m. Chicago time. I have not seen the full agenda to date. Please pass this on to anyone else in your agency as well, who needs to be aware of this action.

The Region would like to schedule with each state a time to discuss any questions on the template and status of the 2022 lists. We would like to have these meetings in February. Please let me know when you and your staff would be available to discuss and who should be invited. I will set up a team meeting for the calls.

Thank you for reviewing the documents and getting back to me.
